

ATTACHING MACHINES FOR DIFFERENT CARRYING VEHICLES

Designed for various carrier vehicles.

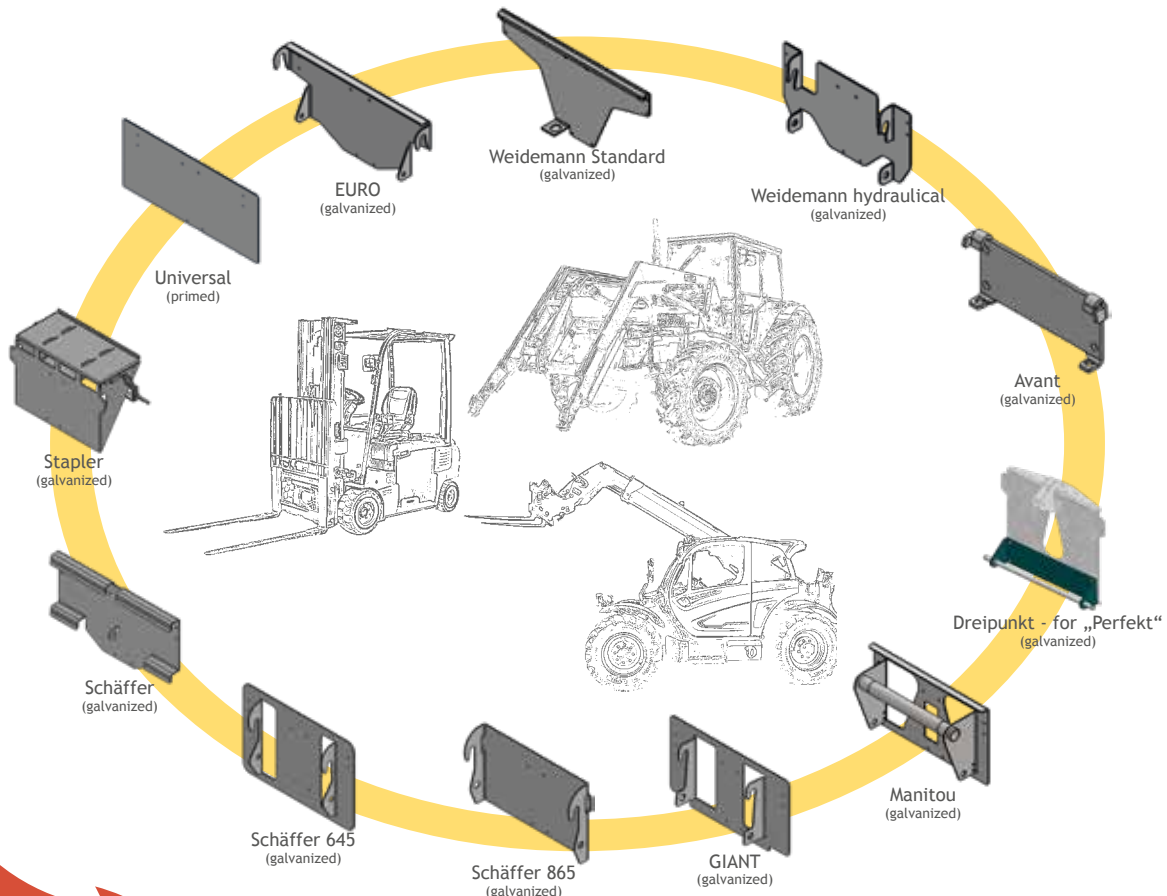

High pressure nozzle

Washer SW 1200

- with high-pressure pump, water tank and clearing stars
- three rubber strips push the dirt through the slit slots and dry the floor quickly
- clearing stars clean up the slits
- subsequent high-pressure water jet washes the tread and the slots later
- working width: 1200 mm
- accessory: high pressure nozzle

Clearing stars

„Which plate can it be?“ We always have the right adapter plate for your carrier vehicle for our attachment sweeper and attachment machines.
