## Attachments for various carrier vehicles

- for farmyards and large barns
- we have the suitable mounting plate for the sweepers and attachments for carrier vehicles such as tractors, wheel loaders and forklift trucks

... and other galvanised adapter plates.

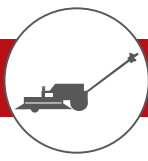

# GENERAL PRODUCT OVERVIEW

www.westermann-germany.com

## WR 650 Battery

- very easy handling
- reaches into every corner, perfect sweeping of bumps due to the brush angle
- removes large and long-fibered dirt
- nearly silent operation
- excellent performance in leaf removal and snow sweeping

**IN USE ALL YEAR ROUND!**

## WR 870 Battery | WR 870 Battery PRO

- operable for everyone and ready for immediate use
- perfect for narrow passages
- removes almost any dirt
- quiet and powerful working process, ideal for indoor cleaning
- integrated charger

**Low-noise and emission-free work:**  
Perfect for indoor cleaning and working near frightened animals.

The difference between the WR 870 and WR 870 **PRO version** is the height of the brush cup. The higher the brush cup, the more dirt can be moved.

## WR 870 Honda | WR 870 Honda PRO

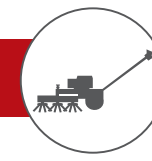

- equipped with high quality Honda engine for constant power
- angled surfaces are swept out quickly
- sweeps away large-volume debris in no time
- also suitable for moving heavy feed masses in agriculture
- regular sweeping with the wire brush produces very convincing results in the environmental friendly moss control

### Available special equipment:

- industrial engine Honda GXV 160 OHV
- our WR 870 Honda Special with double bristles and nursing tires for wider wheel support is perfect for sports facilities, tennis courts, sweeping off planting foils, artificial turf and other sensitive surfaces

**WR 870 Honda available with:**  
PPN brush  
mixed stock PPN/wire brush  
wire brush

## Weed brush

- chemical-free weed removal with rotating wire brush for effective removal of green growth
- incl. all-round protection
- system with four wire brushes

**WKB 330 Petrol**

**WKB 330 Battery**

**before**  
**after**

**WKB wire brushes:**  
Long-lasting, adjustable wire brushes that can be easily replaced via a quick-change system.

- three rotating brush holders with twelve wire brushes and the resulting uniform ground pressure prevent scratches on the ground
- plants are attacked from all sides and removed with a large amount of roots
- height-adjustable suspension adapts to the bristle length

**WKB 660 Honda**

**REMOVE WILD GROWTH - WITHOUT CHEMICALS AND WATER**

**MADE IN GERMANY**
